DETAILED ACTION

Applicant's arguments filed 8/30/05 have been fully considered but they are not persuasive. The request for reconsideration submitted by Applicants does not overcome the rejection made by examiner in the last office action.

Since a patent application is filed jointly by S and another, then an unequivocal declaration by S under 37 CFR 1.132 had been submitted that he or she conceived or invented the subject matter disclosed in the patent or subject matter. However, a statement by the applicants regarding their inventorship in view of an article, patent, or published application may not be sufficient where there is evidence to the contrary. See *Ex parte Kroger*, 218 USPQ 370 (Bd. App. 1982).

Note that the declaration submitted by Applicants is insufficient to overcome the prior art rejection because the declaration fails to show the relevant portions of the reference originated with or were obtained from applicants. See MPEP 716.10.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1711

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
